D2L Updates x
Posted Mar 27, 2014 3:38 PM
Hello Again,
It appears, for the most part, that the quiz issues have been resolved. It may take some time for the scores to appear. If you believe that the system has incorrectly scored your final, please contact me ASAP. Also, if you are satisfied with your final quiz score after your first attempt and will not be taking the final a second time-please let me know via e-mail (castillon-j@sa.ucsb.edu) that I can accept your first attempt score as is. I have scored all module posts for students in section 2. If there is a discrepancy in scoring for Section 2, please e-mail me ASAP.
Thank you so much for your patience through all of the D2L issues.
Sincerely,
Jane

As a follow-up... D2L can support various sizes of media but uploading time will depend on your bandwidth, per IT. It may be easier for you to upload to youtube and post a link via D2L if you are having tech issues. Video recording is not required but recommended. If you have any difficulties, please let me know. Thanks, JMC

A clinician has a client complete the original Beck Depression Inventory and determines that his client does not, after all, have major depressive disorder.

A clinician asks an adolescent client to complete a self-report measure of depression.

The examiner asks a client to complete a self-report measure of depression.

The examiner is, for the most part, offering neutral remarks, except for a few mildly disapproving statements such as "you're smarter than that"

A clinician is rushing to finish things up before her vacation and decides to leave a message on her client's voicemail about the results of the intake assessments with no consideration of the client's potential emotional reactions.

The clinician, after conducting one intake assessment, labels a 9-year-old client a "sex offender" because he coerced his twin sister to touch his genitals.
